

## PREFACE

### 1. SAFETY

This instruments are designed according to the following safety documents: (IEC 61010—1:2001) (Which is: ((Measurement, control and Laboratory Electric Equipments Safety Requirement)) Part 1) ((IEC 60601 -1: 1988)) (Which I: ((Electric Apparatus of Medical Treatment)) Part 1).

### 2. About the Instrument

Scanning Series UV/Vis Spectrophotometer is an electrical test instruments which is widely use in the laboratories

- |                               |                 |
|-------------------------------|-----------------|
| • Use Frequency               | : Intermittence |
| • Excessive Voltage (Current) | : No            |
| • Pollution Class             | : Class 1       |

### 3. Symbols

Caution, Danger!

Caution, High Voltage!

Caution, Hot!

Ground

Fuse

Recall, This Instrument Will be called back by the appointed electrical treatment department or by the original manufacturer when wasted.
